Well Lions here we are on the down hill slide with just a few months left I hope each club has got there goals under control. We still need new members, although we are still a plus in the state. We have some cabinet members not doing their job. If you are having a problem and are just not wanting to do your job or need some help, please call me or Lion Judy Champion. We need your efforts so that we can do our job. If we don't receive them we will call you.

There are some of the clubs that have not scheduled their Governor night, please do so. Zone Chairman, we do not have some of your reports and you have not returned my call, please do so. Please attend the cabinet meeting with your report

J. E. McCune

James "Bud" McCune
District Governor

At the last Council of Governors we received the membership report for the State of Texas indicating only two Districts having a positive net gain in membership, despite this less than desired outcome I am proud to say that our district is one of the two Districts that has a plus in membership. The Governor and I would like to congratulate and thank all of you who are working hard to increase our membership. Every Lion is aware that membership is vital to the existence and viability of our organization. Our International President Kay Fukushima and other leaders has exhaustively worked on ways and means to increase our membership and have put out massive information, created support groups and task forces and have laid out this information throughout The Lions Magazine, as well as in brochures from Lions International and in training sessions. It is all there for the asking, it is all there to improve ourselves and our Organization. I do believe in few basic and simple ways to increase and improve our membership namely recruiting one member at a time. Good orientation is a must to a new Lion, Get her/him involved in valuable service activities right away. Mentor her/him along the way and be a good role model; most likely that this new Lion will become a productive Lion for a long time.

A reminder to everyone, wanting to attend the Leadership Development Training for Lions in the State of Texas, will be held in Austin at the Red Lion lintel on March 8-9, 2003.

The upcoming Cabinet meeting will be at the Holiday Inn, Southwest on March 15, 2003. Details will be in the newsletter. I encourage every Lion to attend the Cabinet meeting so you will know what is going on around the District.

On a personal note I would like to ask all Lions to include our nation and our leaders in our thoughts and prayers to give them courage and wisdom to do the best for mankind during these difficult times.

Please Note entries into “Around the District” come from the MAR’s and also the Total Hours Lions give. When you fill out this form please, tell of events you had, and are about to have, leaving everything blank, and placing 5 hours tells nothing about what your club did... Does not say anything...

I am rethinking Next years MAR any ideas would be helpfull.

One thought I Have is that This is where you can tell of upcoming events time date place, and other clubs might attend.

So if your planning a fundraiser Get it in here ASAP.

Houston Ear Research Foundation

A Non-Profit Foundation Dedicated to Research and Education for the Hearing-Impaired

January 13, 2003

Mr. Lenny Holzband
Lion's Club, District 2-S2
9118 Spellman Road
Houston, TX 77031-2223

Dear Lenny:

On behalf of the staff, Board of Trustees and children of Houston Ear Research Foundation, we would like to thank Lion's Club, District 2-S2 for your past support and confidence in our program. Your most recent contribution of hearing aids to be used as loaners for infants identified with severe to profound hearing loss as part of the Texas newborn hearing screening program have been a tremendous assistance. As you can imagine, new parents experience a tremendous shock when informed that their newborn baby has a significant hearing loss.

We have started a program, with the assistance of your donated hearing aids, where we can immediately provide appropriate amplification for these infants. Parents then are allowed a period to deal with the issue of hearing loss at their own rate, without having to worry about financing the hearing aids. When the child is 1 year of age, they can receive the cochlear implant, if appropriate. If implanted, they return the hearing aids to be "recycled" for other infants; if implantation is not appropriate, we direct parents to the process of obtaining their own hearing aids, and the hearing aids are also returned to be used again. This allows the most appropriate hearing health care management, with the hope of minimizing additional stress for the new parents.

We most recently, with District 2-S2's assistance, fitted a 3 month old with binaural hearing aids. The child's reaction was priceless: he immediately quieted, smiled and gurgled!! His mother began crying as this was the first time she had seen her child respond to sound of any kind, and she was so encouraged that, indeed, we might be able to help her son.

Houston Ear Research Foundation is a non-profit 501 (c) (3) foundation started by H. E. Maddox, III, M.D., in 1983 for medical research and education, primarily involving the cochlear implant, a surgical procedure for severely and profoundly hearing impaired. We have grown to be one of the premier cochlear implant centers in the country. We rely on contributions from individuals, corporations and private philanthropic groups and we receive no government funding. No one is denied hearing health care.

The cochlear implant is an electronic inner ear device that helps people with severe to profound hearing losses regain some ability to hear. One part of the implant is surgically placed into the inner ear (cochlea) and sound, converted by another part of

(April 21 -27)

BIRDIES for CHARITY

Dear Fellow Lions:

For our fourth successive year we have the opportunity to extend our mission of sight restoration and prevention of blindness through *Houston Golf Association's Birdies for Charity* program held at the Shell Houston Open. Every dollar raised by us will go directly to the Lions Eye Bank of Texas and the Lions Eye Bank Foundation.

Please review the enclosed brochure and pledge form for entering this contest. Essentially, all that is necessary is to pledge one cent or more per birdie or a minimum contribution of \$20 or more. Based upon the past five Shell Houston Opens, between 1500 - 1800 birdies will be made by the Tour pros during the five days of the tournament. You have the opportunity to win a 2003 Buick Rendezvous if you guess the exact number. In case of a tie, a winner will be determined with all tied contestants being invited to the tie breaker event. In addition there will be a number of consolation prizes, including a golf vacation package and two round trip tickets from Continental Airlines.

With the support of every Lion in Districts 2-A3, 2-S1, 2-S2, 2-S4, this can be a project unequalled for providing gratis corneal tissue and research grants to prevent blindness. Please contact golf members, businesses and corporations in your area and see what great things can be done. **All completed forms must be in at the Eye Bank by April 19, 2003.**

The concept is simple. We are asking you to make a minimum pledge of a penny a birdie for every birdie made Wednesday through Sunday by the pros at the Shell Houston Open. Of course, you can pledge more or even make a flat contribution. A check must accompany a flat contribution of \$20 or more made payable to the *Houston Golf Association*.

After the tournament you will be billed for the amount of your pledge written on the official pledge form. For instance, if the pros make 1600 birdies and your pledge is a penny, you will be billed for \$16.00. It's that simple. Since only original forms may be used to enter, please contact Laura Rahman, Community Relations Coordinator, at the Lions Eye Bank for any additional needed. She may be contacted by phone at (713) 798-5545 or by email at lahman@bcm.tmc.edu

DUMPSTER DIVING

**Perhaps this is one reason Governor Bud gets so many new members
He looks everywhere possible.**

Dumpster diving is the name given to the activity of climbing into these giant garbage containers in order to rummage through other people's trash. This free venue for used goods definitely isn't for everyone. Nonetheless, there are plenty of stout-hearted individuals who claim dumpster diving is both fun and profitable. After hauling their salvaged treasures home and cleaning them up, divers either use them, peddle their finds at flea markets or sell them to secondhand shops and antique stores.

Prime times for dumpster diving are the week after Christmas, around Easter (spring cleaning) and when school lets out in residential neighborhoods near colleges and universities. According to those with experience, store openings and closings generate superior scavenging opportunities, and the bins behind advertising agencies often hold coveted surprises that are abandoned after product shoots. When rummage sales are over, somewhat less desirable unsold curios often end up in a nearby dumpster. To find specific items, veteran divers recommend visiting dumpsters located behind businesses that sell, service or use the product being sought.

For those who find the idea intriguing, here are some guidelines: To begin with, ask permission before diving into a private dumpster. Then, rather than actually climbing inside, which in fact isn't recommended, extend your reach with a pair of long-handled tongs or a "fishing pole" made from a stick with a bent nail or metal hook protruding from the end. During the search, watch out for broken glass, sharp objects, empty chemical containers and other hazardous waste. Consider wearing protective glasses, sturdy boots, gloves and similarly appropriate clothing.
