Message from the District Governor

April is a very busy month. It is Leo Club Awareness Month also April 16-18 is the Global Youth Service Days. We Lions need to focus on youth programs and youth services. We should assist our young people to have community-wide service projects. For the first in our District Convention there will be offerings for Leos and hope we can continue this trend in the future. Lion Services for the Children has been approved by the Board of Directors of the Lions Clubs International in October 2003. This program will focus on the health and education of children in need! Clubs are asked to submit to the International headquarters details and photographs of successful health and education projects for children. The information will help identify possible model projects as well as projects which may qualify for LCJF grants.

Officer's training is foremost in the district's agenda at this time. It starts at the District convention and there will be several sessions after that, thanks to our Leadership Chairperson Baron Cagle. It is imperative that new officers must attend at least one training session.

By the time you read this message we are on our way to have our District Convention. I am looking forward to see all of you Fellow Lions and guests. About this time last year I was unsure what to do about my plans and visions I had hoped to accomplish for the District. I had hoped that if I work hard enough I could bring leadership, not elitism that empowers and open doors to women, young Lions as well as new Lions, I have role modeled leadership that respects cultural, socio-economic, educational and even personality differences so we can focus to what really the heart of our existence and that is "WE SERVE". I must humbly say that I think we made small progress and still lots to be done. I am confident that we have a very capable leader coming on. Let us give our full support to VDG Fred Wuensche and his lovely wife Lion Judy.

It is amazing what you can accomplish if you do not care who gets the credit!

Innovation, Diversity and Empowerment Gateway to Leadership and Better Service!

Melba Buado

District Governor Melba Buado

Vice District Governor Fred Wuensche

Hello, Fellow Lions:

An urgent message for Club Presidents and Secretaries: As you read this, an important deadline in Lions International will have past. April 15th is the date when the PU-101 forms are due in from each club Secretary to Lions International, *with a copy to me*. This form communicates your Club's Officer List for the upcoming Lions Year, 2004-2005 which begins July 1, 2004.

Your Club Officer information for the New Year is vital for LCI to publish the International Directory for 2004-2005 (your President and Secretary are included), and also for our District Directory to be compiled by PDG Ron Landers.

If your club is one of the dozen that have submitted PU-101 copies to me, a big "Thanks" to you. Will the rest of you please get them in ASAP? Please help us get your year to a successful conclusion by getting this taken care of? Follow-ups are wasteful of your time, but they will happen soon..

Club Presidents: now that you are "short timers," do your newly elected officers a favor by being sure that the incoming President, Secretary and Treasurer, as well as any other interested officers attends one of the five Officer Training Events. These are listed elsewhere in this Newsletter. Lion Barron Cagle, our outstanding District Leadership Chairperson, and Governor Melba have put together short (two hour) fun-filled sessions on how to have a successful year. This is fresh material, and is useful even if you've attended training in the past. ***These sessions have been scheduled at diverse locations, varied times and dates to make attendance easy. One of the five should work for your club.*** Special thanks to Lion Barron for this innovative approach to training.

In our visit schedule, Lion Judy and I are scheduled to attend the 75th anniversary banquet at the Angleton Lions Club in District 2-S4, the Charter Night for the Bremond Lions Club in 2-S5.

Hope to see you at the District Convention

Fred Wuensche

Vice District Governor Fred Wuensche

Local non-profits seeks donations of medical supplies

Clear out your attics, closets and garages and give those unused items such as wheelchairs, walkers and crutches and leftover medical supplies to Medical Bridges, a local non-profit that sends surplus medical supplies to impoverished people in developing countries.

Started seven years ago, Medical Bridges has touched thousands of lives in nearly 60 countries by sending over ten million dollars worth of goods that would have likely gone unused or put in our landfills. Medical Bridges receives surplus items from area hospitals, home health agencies, nursing homes, medical supply companies and individuals. Your club can help by donating supplies, volunteering your time, spreading the word of this endeavor or letting us know if you are connected to the medical and dental field.

Together we can make a difference in the lives of those around the world that are struggling every day. Please call us at 713-748-8131 or visit our website at www.medicalbridges.org.

TYPICAL...

This is typical the world over. If things don't go as planned we start pointing fingers at someone. In our own country fingers point at the Government, which includes President Bush, by the Environmental Protection Agency. Everyone has their own ideas. One thing for sure — we need to protect our world when it comes to air, water and land against harmful environmental practices.

The EPA released a mixed "Report on the Environment" that outlined progress in areas from air quality to drinking water but said plenty of problems remain. While the report assessed environmental matters from water clarity to the ozone hole, it said nothing about climate change. Sharp disagreements between the EPA and White House became public over how the climate issue should be characterized.

While the air is cleaner, half the population lives in areas where air quality does not meet federal health standards on some days. This puts the elderly, children and those with respiratory ailments at special risk.

The report calls the condition of the nation's estuaries only fair to poor, depending on the region of the country. Wetlands are being lost at a rate of 100,000 acres a year, despite pledges by successive administrations to develop policies to end decline.

Also the nation is producing more garbage than ever.

Experts have yet to discern clearly the link between the environment and people's health problems, the EPA maintains.

Critics of the Bush administration took the report as an opportunity to attack the president's environmental agenda.

Under a section titled "Global Issues," it cites progress made in dealing with depletion of Earth's ozone layer, which filters out harmful ultraviolet radiation. It ignores, however, fears of many climate scientists about a future warming of the Earth because of manmade pollution.
