We have been doing some fast traveling; first to Osaka Japan at the Lions International Covention, where we were sworn in as District Governors. We had several days of studying all day, but we enjoyed it and met some nice people.

We came home from Japan and had time for a few meetings and a Cabinet meeting , then it was off to Kerrville for meetings at the Texas Lions Camp, which we always enjoy going to. Then we had time to go to the Waller Lions Club 50th Anniversary which was nice and they had a good turn out. They had two charter members at the meeting. I personally think Waller is an outstanding community club.

Then it was off to Rochester Michigan for the Leader Dog for the Blind. It is a well managed operation and they do out standing work for the blind. They are selling bricks for \$100 each with your name on it. They are expanding the operation and this is a way to help. The money goes into an endowment, and they work off the interest.

Our membership is the lowest it has been in two years 1982 members. Lets all bring in a new member this year so we can get back on the plus side. Membership is everybody's job including mine.

At no time this year will I ask you to do anything I will not do. I ask you to support me. If you have not called to schedule your Governors visit please call Lion Judy and get it on the calendar.

Yours in Lionism

J. E. McCune

District Governor
James E. "Bud" McCune

I have just attended the first Council of Governors as an invited observer and a trainee and I have the opportunity to personally hear our International President Kay Fuckishima expound his personal theme " One world, one heart, building a better tomorrow " What an enlightening theme. I am most impressed with this concept especially, when he said " we must serve as one where ever we are, We must learn to coexist respecting each others right's and opinion. We must give oneself without expecting anything in return". He envisioned all Lions of the world to work together as one, and to strive for excellence for the purpose of helping humanity thus building a better tomarrow. Our first cabinet meeting was held in the beautiful downtown Huffman and DG James Bud McCune reiterated our IP Fuckishima's message to all Lions to go out and give service to the community.

The first PSC meeting was held chaired by Lion Bob Otto and was very well attended. I take it as a positive feedback from Lions in our District especially, the Presidents and Secretaries showing their interest, commitment and support for this Lion year. I will be working with the MERL team, our committee meeting coming up Aug 26th at 7 pm. As of now Lion Baron Cagle, Leadership chairman, Lion Chuck Martin Membership chairman and PDG Harry Goetzman for Extension are doing a good job in presenting their role to any club or Lion that needed them. Leadership training was held for the Zone Chairman in coordination of our Zone Chair Coordinators PDG Lenny Holzband and PDG James Cates.

With all the things that we do, please remember to have good fellowship and good fun while "WE SERVE" with all our heart.

Melba Buado

Vice District Governor
Melba Buado

Lion Judy Champion introduced our District Governor Lion Bud McCune.

District Governor Lion Bud McCune presented PDG Lion Otice Parker the Ed Flood Award, then talked about things we need to do. First membership is very important. Ask the people you know again, some of then you may have never asked before. The 100% charity, each club should have the right to pick which charities they want to contribute too, they should not have pressure on them to give to all these places. If you ask you will get the donations that you and they need. Lets not push the Lions members for their money, lets get out in the communities and get them to help pay for these projects.

At this time our effort to extend the education of Diabetes to the 3A and 4A schools is underway. Video 's have been given out to the Zone chairpersons to distribute to nurses in these schools. This effort is to be made by the clubs of those schools that are

designated to receive the video. If your school or schools fall into this category and have not be contacted or received the video as yet please contact your Zone Chairperson. Remember your Texas Lions Foundation as one of your 100% contributions and also as a way to recognize a deserving Lion with a sustaining member award \$125.00 or as a Texas Lions Fellow \$500.00. As soon as I can I will be available for a program to your club.

Some Thoughts on Sight

Seventy-seven (77) years ago, Helen Keller addressed the International Lions Convention in Ohio and asked that the Lions "... constitute themselves as Knights of the Blind in the crusade against darkness." They did, and the world was irrevocably changed for the better. Millions of people now see who would have otherwise lived a low quality life in darkness without ever knowing their full potential. The lack of sight does not diminish the individual's intellect, but it does severely limit the probably of development and contribution to the human spirit by living "the best possible life experience". To some degree, we all have an obligation to do our very best simply because the quality of these contributions are the building blocks of our civilization. During the past 77 years Lions, have instinctively known this, and the contributions have been enormous to the point of being legendary.

The Lions Eye Bank Of Texas held their annual dinner at the Marriot in the medical center and installed officers for the year 2002—2003.

On behalf of Lions Clubs International and Lions International President J. Frank Moore, Lion PID Marshall Cooper presented Al Lindow a Leadership award for his service to the Lions of District 2-S2 and the Eye Bank.

LCIF UPDATE

President George W. Bush honored as one of the latest Melvin Jones Fellows.

Lion William K. "KIM" Anderson, of Liberty, Texas, (President of Liberty Lions Club 200-2001 and a Melvin Jones Fellow) recently donated \$ 1000.00 to LCIF to name President George W. Bush as a Melvin Jones Fellow.

A long time advocate of volunteerism, President Bush is an appropriate honoree as a Melvin Jones Fellow. He once again urged Americans to serve their nation and the world through volunteerism when he spoke on November 9 at the World Congress Center in Atlanta. "All of us can become a September 11th volunteer by making a commitment to serve in our communities. So you can serve your country by tutoring a child, comforting the afflicted, housing those in need of a shelter and home" he said

Lions Clubs International Foundation

Dear Fellow Lions:

LCIF proudly sponsored a summer camp in early July for families devastated by the Sept. 11 terror attacks. The camp, located in Maine, was made possible by the Sept. 11 Disaster Relief Fund and was a big success. The families had a chance to relax, swim, and enjoy summertime activities and bond with one another. The camp was "a week for the families to mend and share the bitter sweetness of being in a place, where in the words of one mother, "We don't have to explain," according to a story in the Boston Globe.

A dozen Lions volunteered at the camp to help it run smoothly. The Lions made sure the families had everything they needed and got the most out of the camp. I am very proud of the support the Lions and our LCIF have given in this endeavor and thought you would enjoy information concerning the activity.

The camp received widespread media coverage including stories in these publications:

- New York Times • www.lcif.org/Sept11NYTimes.htm
- Boston Globe • www.boston.com/dailyglobe2/187/metro/Hope_floats+.shtml
- Portland Press Herald • www.pressherald.com/news/state/020703sunshine.shtml

The camp is but just one way Lions and LCIF have responded to Sept. 11.

HARM TO OCEANS STARTED WITH NATIVES

Ancient humans started destroying the abundance of the seas by slaughtering whole species of animals, changing a delicate balance that was tipped further by excesses of the modern age, a study finds.

A cascade of environmental damage that changed the pristine Earth was started thousands of years ago by the destruction of key species, such as sea turtles in the Caribbean, sea cows off the coast of Australia and sea otters near Alaska, researchers said in a study appearing in the journal *Science*. The effects of that damage continue today. There's been a longtime belief that everything was fine until the Europeans showed up. Now we've discovered that the start of the environmental problems goes way back before that. The notion of the native peoples having a benign impact on the environment in their vicinity has been challenged. The general feeling is that there were dramatic effects locally and not a prudent pre-dation by ancient humans long before the Colonial and industrial eras.

Based on the research of 19 scientists on four continents, the study shows that careless and excessive harvesting of food from the sea as early as 10,000 years ago caused changes in the ecosystems and made the environment more easily damaged by the wholesale exploitation of modern man.

In the study, researchers analyzed the effect the loss of species has had on the intricate food web of coastal areas in the Americas, Europe

and Australia. Included was an analysis of kitchen debris left by ancient humans; reports on the abundance of sea life by explorers in the 18th and 19th centuries; and modern wildlife population studies.

Algae now choking and killing many coral reefs in the Caribbean can be traced to the slaughter more than 3,000 years ago of the green sea turtle and to other animals that grazed on the sea plant.

A study of kitchen refuse piles from the Amerindian peoples who first settled the Caribbean showed that they depended heavily on the sea turtle for food. The animals were easy to catch as they regularly lumbered ashore to lay eggs on the semi-tropical islands.

But evidence of turtle slaughter in the kitchen refuse grew less and less with the passage of time until, finally, the turtles disappeared entirely. It is clear the nesting colonies were wiped out.

With the turtle gone, the people turned to other food, such as the large parrot fish, a meaty dweller of the reef. Those, too, eventually became scarce, a did other plant eating animals. We reduced the system to one plant-eating species, a type of sea urchin. Fifteen years ago disease wiped out the sea urchin. Algae quickly exploded in growth, smothering many coral reefs.

Some of the environment loss can be recovered with new programs to protect sea life and control fish.

Looking for something interesting for a club meeting choose one of the Club Programs on the list. Get one of the program Directors or speakers out to your Club meetings. This would be an excellent tune to let your new members find out a little more about being a Lion and update us Lions that have been around awhile of new activities and programs that our Clubs support. Remember.. presentations marked with an asterisk* count as points for the District Contest. See your District Newsletter regarding these points. I have tried hard to make sure that telephone numbers, etc. are correct. If there is an error please let me know and I will get it corrected. Please try to arrange for you presentations several weeks in advance and follow up with the speaker of any changes. If you know of any programs of interest that are not listed please advise me and I will try to get them on the list.
